I. Review Meeting Information

- Meeting Date: **17.08.2024**
- Meeting Time: **20h30 GMT+7 (VN Time)**
- Meeting Location: **Zoom Meeting** ([link here](#))

II. Review Description Description

1. What went well?
 - Team members could easily follow the project plan.
 - The team worked well with good progress and no delays.
 - They can have the mindset about all architecture of the SIBOOKS WEB system.
 - They can design all the UI Layouts.
2. What went wrong?
 - The Software Architecture Design
 - The code about APIs.
 - The UI Prototype.
3. What problems and what caused the problems?
 - The deployment diagrams had a lot of wrong issues so they needed a lot of time to fix them.
 - Members had no experience with the frontend code and backend code so they needed a lot of time to learn and fix bugs from code.
 - We do not have enough time to write documents and code all the time.
4. What can be done differently in the next sprint to improve the project?
 - Our team will test all features and functionality of the system.
 - Our team will write the plan to release our product.

- Our team members need to discuss the plan to code on time.

5. What lessons we could learn?

- The importance of thorough planning and validation of use case diagrams.
- The need for team members to gain experience and training in frontend and backend development.
- The time is limited so we just focus on the main features.

III. Summary of the meeting

- All members were present fully and on time.
 - Team members can list all problems of their tasks and give solutions to the next sprint.
