III. Summary of the meeting

- All members were present fully and on time.
 - Team members can list all problems of their tasks and give solutions to the next sprint.
 - Lessons:
 1. Some tasks require much time to be done so we can not complete them in one sprint. This is the reason why we need to divide tasks into small ones in a few sprints.
 2. We can discuss with each other to find out the problems of our tasks.
