## I. Common Pages

### 1. Sign In Page

*Figure 1. The Sign In Page*

Here is the **Sign In** page, if a user had an account before, he or she can enter the password and access the page easily.

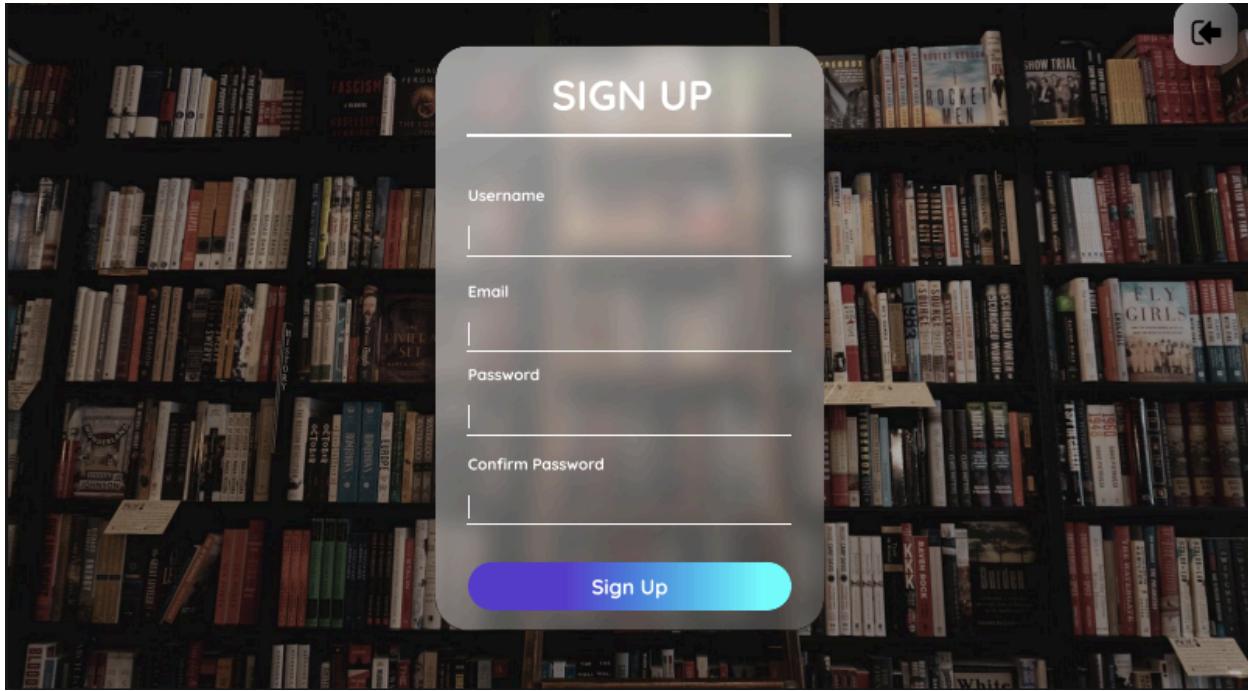

However, if users forgot their password, they can also click “**Forget your password?**” to retrieve their passwords, we will send the password to the user's email.

In addition, if users don't have an account, they can also register by two ways:

- First, users can click the “**Don't have an account? Sign up now**” to register an account easily.
- Secondly, users can also sign up with their google email addresses.

UI Prototype Description	Date: 16/08/2024

## 2. Sign Up Page

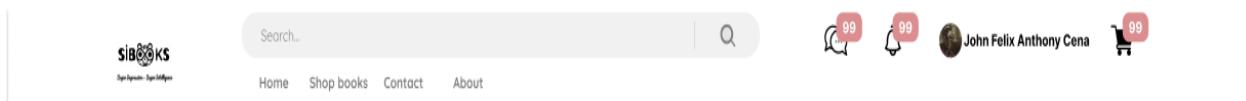

**Figure 2.** The Sign Up Page

Here is the page when users want to sign up their new accounts, they have to complete these simple information, including **username**, **email**, **password** and **confirm password**. Finally, when users complete those steps above, they can click the **sign up** button to return to the **sign in** page, and then sign in their new accounts.

## 3. Header

### a. User

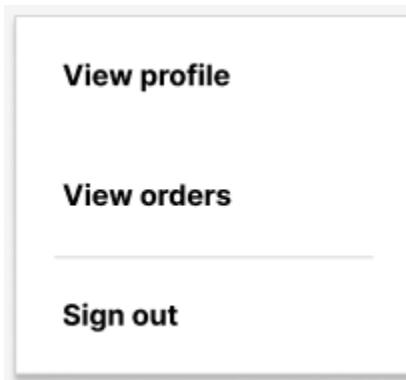

**Figure 3.** User Header

- Click the **logo** to return to the **Home** page no matter where you are.
- **Search bar** can help users to look for their favorite books or other users.

- Click **Home** to return to the **Home** page.
- Click **Shop Books** to visit the **Shop Books** page, the place where we sell our products. People don't have to buy books, they can also look for the introduction and the reviews about books.
- Click **Contact button**, the place where users can send their feedback and questions to our website. Don't forget to read the FAQs before sending the messages.
- Click **About button**, users can know more about our members and our website, also the introduction of each member in our team.
- The **Bell icon** helps users to view notifications from admin (or bookstore).
- The **Chat icon** helps users to chat with admin.
- The **Cart icon** will redirect users to the cart page.
- The **Avatar** and **Name** of users has a sub menu:

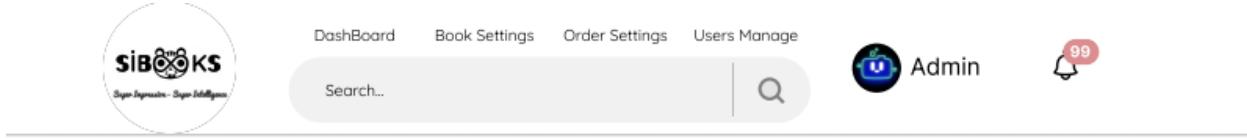

*Figure 4. The sub-menu dialog*

- **View profile** can lead users to the profile page where they can view and update their personal details.
- **View orders** will redirect users to view their orders.
- Users **sign out** when they want to sign in to another account.

## b. Admin

SIBOOKS WEB	Version: 1.10
UI Prototype Description	Date: 16/08/2024

**Figure 5. Admin Header**

- Whereas there are some differences in the admin's header, admin will not have **Chat icon** and **Cart button**, but in the remaining parts, it seems to be the same as the user's header.

### c. Guest

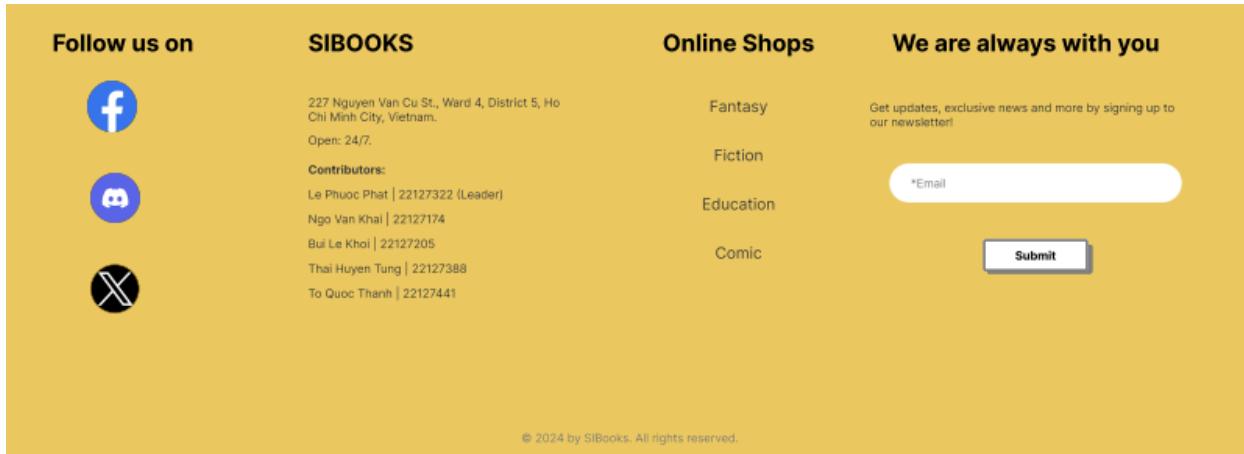

**Figure 6. Guest Header**

- The **Header for Guest** mode is similar to the **User Header** interface, but there are few changed details:
  - There is no button for notification, chat, cart and user profile menu.
  - There are 2 buttons on the right. Click the **Sign In** button and the website will navigate to the sign in page, or click the **Sign Up** button and the website will navigate to the sign up page.

The main content area has a yellow header with the text 'About Us' and a subtext 'More than a just bookshop...'. Below this is a large image of a library interior with a circular staircase. A white box contains a welcome message: 'Welcome to our online bookstore, where every click opens the door to a world of literary wonders. Dive into our extensive collection, ranging from thrilling mysteries to heartwarming romances. Join our vibrant community of readers, where discussions and recommendations abound. Let us guide you on your literary journey, helping you find the perfect book to escape into. Welcome to a place where stories come to life, just a click away.' At the bottom, there is a section titled 'Our Members' with five user profiles, each featuring a placeholder profile picture of a blue robot head and a name: Ngõ Văn Khải, Bùi Lê Khôi, Lê Phước Phát, Tô Quốc Thanh, and Thái Huyền Tùng. Each profile also has a small block of placeholder text: 'Hello Hello Hello Hello Hello'.

## 7. Cart Page

The screenshot shows the 'YOUR CART' section of the SIBOOKS WEB UI. On the left, a list of five books is displayed, each with a checkbox, a quantity selector (set to 1), a price of '99.000 đ', and a delete icon. The books are identical, showing the cover of 'How to Win Friends & Influence People' by Dale Carnegie. On the right, there is a 'Voucher' section with two discount options: 'Voucher discounts 10K for bills above 100K' (with a 'See more' link) and another identical one. Below these, an 'Attention:' note states that vouchers can be applied to many bills but only one can be applied per bill. At the bottom, there is a summary table showing 'Total: 0 đ' and 'Total (With VAT): 0 đ', followed by a large red 'Check Out' button.

**Figure 22.** The Cart Page

- **Cart Page** contains the information about product list, vouchers and checkout. First, users can view the price and the amount of each product. Moreover, they can delete products one by one, select multiple products or press select all and choose delete option above. The second part is the vouchers. The users can choose an appropriate voucher for their bills. These vouchers can be applied to many different bills but they can only be applied one for each bill. Finally, users can pay their bills by pressing the Checkout button. It will show the options for them to select and show their final payment.

## IV. Admin Pages

### 1. Dashboard Page

- In **Dashboard**, the admin can view the revenue analysis of the website through charts in the main screen as in the image below. The dashboard shows data by week by default.
- On the top left corner, we have 4 sections. The first section shows the total revenue this week, the next section shows the average visit duration in the website this week - how long do the users stay in the website. The third section shows the products which were in the store this week. And the last section shows the number of products which are sold this week.
- On the top right corner, we have a line chart which illustrates the detailed average revenue per day in a week so we can know the day which has the most revenue.
- On the bottom left corner, we have a pie chart which illustrates the percentage of most purchased books in this week.
- On the bottom right corner, we have a bar chart which illustrates the average number of accesses in a day.

## 6. Users Management Page

- In the users management page, the admin can control the user's account. There are 2 options for the status of an account - **Ban or Unban**. The user will be banned if he/ she has left a rule comment or has toxic behavior. Depending on the behavior of the user, after several days the admin will unban for that user's account or if there is something confusing, that user may send an email to explain the reason and if that reason is suitable, the admin will unban.
- There is a square in front of each row, the admin can check many squares or select all and set the status for the user's account on the Options menu.
- Next to the **Options menu**, we have Sort by method where the admin can sort by username, email and status (accounts which were banned will be placed first).
- Moreover, the admin can view a specific account, here admin can also view the previous orders of that account.
